SIDE B (Actions). Use this side to provide step-by-step instructions for library and affiliated personnel who will respond to a disaster affecting your own institution. Ideally, steps should already be defined in the library disaster plan. This document is NOT intended to be a substitute for a comprehensive emergency plan. Instead, it should distill the most important tasks to be taken in the first minutes and hours after an event occurs that affects collections, especially those that occur when staff members are away from their offices.
